SUMMARY

Communications and computer Engineer specializing computer science. Obtained an Excellent in Graduation Project “Driver Distraction Detection”. Dedicated front-end developer with 3 years of experience implementing responsive web applications. Proficient in HTML, CSS, JavaScript, and library like React. Skilled in translating design mock-up into pixel-perfect, interactive interfaces.

EXPERIENCE

Accurate | Front End Developer

Jan. 2023 – Present

E-commerce | Project Done ([Site Link](#))

- Next.js 14, Iron-Session, GraphQL api, Apollo client, MUI, React hook form and i18next
- building website from scratch
- Developed the front-end using Next.js to create a responsive and dynamic user interface.
- Implemented data management using Apollo Client and GraphQL to fetch product, user, and order data from the backend.
- Designed the user interface with Material-UI to ensure a clean and intuitive UX.
- Added multilingual support using i18next to enable a fully localized user experience.

Shipping system | Project Done ([Site Link](#)): React.js, Apollo client, MUI, GraghQl api, React hook form and i18next

- Utilized Apollo Client for interacting with the GraphQL API, enabling efficient data fetching and management.
- Implemented real-time subscription functionality using Apollo Client to enable instant updates for users. Utilized GraphQL subscriptions to efficiently manage data flow and provide a seamless user experience. Integrated subscription logic with existing Apollo Client setup, ensuring compatibility with the GraphQL server. Successfully tested and deployed the subscription feature, enhancing the application’s interactivity and responsiveness

Accurate website | Project Done ([Site Link](#)): React.js, Bootstrap and i18next

- build full website for the company

Star-kids | Full Stack Developer

Jan. 2022 – Oct. 2023

Star kids ([Site Link](#)): PHP, JavaScript, JQuery, Bootstrap, Html, Css, SQL, MySQL and Wamp Server

- Designed and implemented multiple pages interactive pages optimized for both web and mobile platforms on the StarKids website.
- Designed and developed a comprehensive online examination and grading tool, providing a seamless experience for students and educators alike.

Khwarizmi World ([Site Link](#)): Laravel, PHP, Javascript, JQuery, Html, Css and Xampp Server

- Implemented a user-friendly interface using Blade templates, HTML, CSS, and JavaScript for creating and managing exams.
- Implemented custom JavaScript functionality to enhance the user experience, such as real-time question updates and timer functionality.

PROJECTS

Shortcut-Boosting <i>React.js, Css</i> <ul style="list-style-type: none">• Re-design the website using styled-components.	Jan. 2022
waqban (Site Link) <i>JQuery, Html and Css</i> <ul style="list-style-type: none">• Create an application that selects a single name from a list of names.	May. 2022
